

How do you land a Great White Shark?

Lure him in with great technology.

Greg Norman joined GPS Industries Inc. because of his belief in the technology and the benefits to both golfers and the game. What attracted Greg Norman to GPS Industries?

GPS Industries Inc. is the leading developer of hand-held, portable information systems incorporating global positioning (GPS) and the latest in wireless technology for the golf and recreational industries. Our patented Inforemer® system is the most advanced, feature-rich, portable golf pace-of-play information management system available today. The Inforemer enhances recreational value, increases golf course profits and improves player enjoyment.
